

Coming Soon from Sage Telecom... Web on the Go

Only \$4.99 per month + 3.9 cents per megabyte

- ◆ "No Contracts
- ◆ "No Hidden Costs
- ◆ "National Coverage
- ◆ "Pay for what you use
- ◆ "Fast setup and simple to use

Get Internet access anywhere, anytime using [Web on the Go](#). The wireless Internet connection wherever you go can be used with your laptop, e-reader, tablet or gaming system. Just plug in the mobile USB stick in your laptop or a MiFi Mobile Hotspot into your tablet and then you will be magically connected to the Internet. Now you're ready to surf the 'net, check your Facebook page or play Angry Birds!

The **wireless Internet connection wherever you go** is perfect for those who need Internet access outside of the home or office. [Image of someone outside with laptop]

The device choices:

The **MiFi Mobile Hotspot** can connect up to 5 devices. Also you have a secured connection and have up to 4 hours of wireless use.

The **mobile USB stick** lets you connect with a laptop or any device with a USB port. Also, the USB stick never needs charging and it's the same size as a flash drive.

[Button: Learn More]

How it works: Once the mobile Internet device is connected to your electronic system such as a laptop or tablet, you are connected to the Internet through the Nationwide Sprint® Network*.

Both devices are available for \$79 each. Please visit webonthego.com for more information.

Available starting February 14th
